

## **Message from the Noosa Cyclones President Brendan & Committee:**

Good morning all!

We are excited to announce Peter Pollock as our new Operations Manager.

Peter brings an outstanding basketball background and a wealth of leadership experience to the role. He played in the NBL from 1985–1993 for the Westside Melbourne Saints and Townsville Suns, and also competed in the ABA with the Townsville Heat and Burdekin Wildcats as a player/coach.

Peter has strong governance and operational experience, most recently serving as General Manager of Redlands City Roar Association for four years. He also has extensive experience with Basketball Queensland across almost 10 years, including roles as Junior Participation Manager, Coach & Education Manager, Aussie Hoops School Program Manager, and Queensland Regional Coaching Director.

In addition, Peter has held roles including Development Manager at Southwest Metro Basketball Inc and has coached with the Australian Institute of Sport (Basketball). His achievements include winning Gold at the World Masters and being a QABL Champion Coach.

From here, the office will be manned each weekday from 2:00pm onwards during school term (commencing Monday the 2nd of February), and Peter is looking forward to meeting members, families, coaches and volunteers. He's also moving to the region and is keen to commit long-term and help guide the club into its next stage.

Peter will officially commence with the club this coming Tuesday, the 27th of January and you will see from a photo back in May 2018, it is not his first time at the club, as in his then role as Coach Development Manager for BQ, he caught up with then Operations Manager Will Sinclair and Coach Jason Usai.

Please join us in welcoming Peter to the club!
